

LivMS popular lectures report

Update including lectures January-May 2022 and year 2022-23

Year 2021-22

2 February 2022: Damian Haigh, online, “Notable schools in the history of mathematics education and some of the people who learned there” (38 connections, but some were schools streaming to groups)

10 March 2022: Sammie Buzzard: University of Liverpool, in person: “Lakes, rivers... and waterfalls? The surprising things maths can help us to understand about Antarctica”

12 May 2022: Joel Haddley (LivMS President), in person and streamed: “Slicing Pizzas and Counting Necklaces”

Year 2022-23

13 October 2022: Zoe Griffiths (ThinkMaths and Maths Inspiration), online: “Adventures in the fourth dimension”

24 November 2022: Ed Hardy (University of Liverpool), in person: “Dark matter and dark energy: mysteries of the Universe”

13 December 2022, Christmas Lecture: Andrew Jeffrey (The MatheMagician and Maths Inspiration), in person: “Mathematics, the joy and the magic!”

2 February 2023: Ivona Grzegorzcyk (California State University at Channel Islands), online: “Mathematics and Art”

To be arranged: Presidential Lecture by Damian Haigh.

Possible lecture by Tony Padilla, author of “Fantastic Numbers and Where to Find Them: A Cosmic Quest from Zero to Infinity”

Tony would prefer to talk in person, possibly before autumn 2023.

Peter Giblin, 8 September 2022
